Once in a lifetime

All night, thinkin' of you tonight
I'm gonna make you see the light
Find what's wrong or right
All day dreaming my life away
I'm gonna take you by the hand
Make you understand
Oh no, the feeling comes again

Chorus:

Once in a lifetime
You find the one and only girl
Once in a lifetime
Whoa oh

Loving you hoping this love is true
I'm gonna make you understand
That I'm the only man
Whoa long long nights
Bringing me to the light
Suddenly everything has changed
Nothing stays the same
Oh no, the feeling comes again

(Chorus)

The feeling holds you, it's a feeling I can't live without
Take you by the hand girl, I feel you pulling me closer
It's love

(Chorus)
