

Valentine "Someday"

Visit "[Someday](#)" on MotoLyrics.com

Lying herethinkin' about
When you told me that you just don't care
Sleep alone every night I'm dreaming
'bout the love we used to share

Something's lost, it's a feeling that's gone
Inside I know that it won't be long

Chorus:
Someday
Love will find you girl you'll be with me again
Someday
Will remind you and then we'll be together again

Loving you, everything you wanted
Why'd you have to break my heart
All along both of us remaining
But you chose to let it fall apart

Holding back what you're feeling inside
When I know you can reach out and find

(Chorus)

This time, this time I know we can make it
This time, come on and reach out and take it

(Chorus)

(Solo)

(Chorus)
