"We Run"

We run

Moving up, look ahead
Can't see the end
Dead ahead, all is set
No way we'll bend

Pre-Chorus:

It's one for all we stand or fall
'Till our time has come
It's all for one we're on the run
It's only just begun

Chorus:

We run
'Till the last fight is said and done
We run
Through the long night of what's to come

Standing up, take a breath
Have a look around
No clues, no signs
We won't be found

(Pre-chorus)

(Chorus)

Oh we're feeling stronger
Nothing stands in our way

(Solo)

(Pre-chorus)

(Chorus)
