I get biz what what what what what  
I get biz

Over the tunes of the shows of the protesters  
And the grows that eventually will grow dexter  
I took the single Monaco pressure that you make a  
down with  
And show them what time it is and that a clime in it  
Hip hop had more... they swear in the way I give it to  
these fools lyrically  
Plus I got turn to the club into a rain forus  
Awful what I move on Amazon  
Two on this concrete jungle I move to... I always got eh  
cameras on  
And yelling... you left the fans hard...  
You turn the... to a... the light the.by next meeting  
I know the pressure is going thing the... cheating  
'Cause the beatest nights most I have a...  
So they think I got a ghost life Daphne and Wilma  
Fred and Shaggy don't forget Scooby  
I guess they left some detail... movie  
And try to school me but I aint' the on so I take joy in  
this like... my son  
'Cause I have a gun a protector or the trilogy  
Of a career that used to work playin in a worse way to  
kick off and killing spree  
So the question they... or more less who is  
Or put your name on the...  
And get you fool they...  
We would... snakes in the...  
... for the several one... they rhyme great  
And then the... stay so when the magnitude is 5.8  
My attitude is I won't break on  
Is the kong fu war.
