I never thought I'd find someone like you  
Though in my every fantasy I saw you everyday  
I thought there was no way - to make my dream come true

I always thought that I would be alone  
Afraid to dream that anyone was ever gonna see  
The love inside of me - but how could I have known

A trick of fate would bring us together  
A trick of fate would alter our lives  
We had to wait it seemed like forever  
But never say never to a trick of fate

What were the chances I'd be here with you  
That after all the lonely years of searching everywhere  
I'd turn and you'd be there - from clear out of the blue

Our lives are in the hands of destiny  
And though we try to take control  
That's not the way it goes - a higher power knows  
How it's supposed to be

A trick of fate brought us together  
A trick of fate altered our lives  
We had to wait it seemed like forever  
But never say never to a trick of fate

And now, something has begun - something very new  
And suddenly the future's looking bright  
Somehow when two hearts beat as one, fairy tales  
come true  
And anything seems possible tonight

A trick of fate brought us together  
A trick of fate altered our lives  
We had to wait it seemed like forever  
But never say never to a trick of fate

It just goes to show  
That you never know  
Where love's gonna grow

- It's a trick of fate
