Four o'clock in the morning  
Waiting for the light  
It's another day dawning  
Another day  
A better life.

Walk out in the morning sun  
I'm always going to be  
With you

Lay down when your day is done  
I'm always going to be  
With you.

I don't blame you for crying  
No-one else could see  
But today we'll be flying  
Forever you  
Forever me.

Walk out in the morning sun  
I'm always going to be with you  
Lay down when your day is done  
I'm always going to be  
With you

No doubts now we're free to run  
I'm always going to be  
With you.

It's a beautiful,  
Beautiful day....
