"My Dream Is Gone"

Visit "[My Dream Is Gone](#)" on MotoLyrics.com

Late at night when you're all alone
I'll be there for you
After dark when you're on your own
I'll be your dream come true

When I lay my head to sleep
You're here with me
I wanna do it all over again

But your love is hard to keep
I'm in too deep
Forever praying this night will never stop

Get up, it's eight o'clock
And I'm still at home all alone
My dream is gone

I just can't get you off my mind
And the nights we share
I can wait for you one more time
'Cause baby, I know you'll be there

When I lay my head to sleep
You're here with me
I wanna do it all over again

But your love is hard to keep
I'm in too deep
Forever praying this night will never stop

Get up, it's eight o'clock
And I'm still at home all alone
My dream is gone

But you're still here
I'll always keep you in my heart, in my heart
You'll be there for me
Every time when I go to sleep

Ooh, no matter if I'm all alone, all alone
Tell you how I feel
Almost like you are here for real

When I lay my head to sleep
You're here with me
I wanna do it all over again

But your love is hard to keep
I'm in too deep
Forever praying this night will never stop

I wanna do it all over again

But your love is hard to keep
I'm in too deep
Forever praying this night will never stop

Get up, it's eight o'clock
And I'm still at home all alone
My dream is gone

Get up, it's eight o'clock
And I'm still at home all alone
My dream is gone
