Now who's that babe with the fabulous shadow?
It's only one scene, but to me it don't matter
Her movies get down like you won't find in my
hometown
They won't believe it when they see what they're seein'
Go see baby now!
Pictures on the silver screen
Greatest thing you've ever seen
Now her name is up in lights
Everything turns out all right
Daddy's little sweetie after some damn rainbow
Got the big deal in the back of a limo
Now showbiz is so thrillin', the camera rolls she's willin'
They won't believe it when they see what they're seein'
Go see baby now!
Hey, you remember when that girl was prom queen?

Oh wow! take it off! take it all off!
Pictures on the silver screen
Greatest thing you've ever seen
Now her name is up in lights
Everything turns out all right
Now they believe it, now that they've seen it
Go see baby now!
Pictures on the silver screen
Greatest thing you've ever seen
Now my baby's up in lights
Everything turns out all right
Lights! camera! action!
