(on the "can't stop lovin' you" cd single)  
I reach across to the other side  
To make contact with you  
Golden slumber, you fill my dreams  
When [and? ] I make contact with you, oh  
Don't ask me why I'm crossing over  
Oh, crossing over  
Sammy:eddie:  
I never got to? what's it all about?  
Really know youis there a way... out...  
The way I want to nowoutta here  
So many things i...i'm like the rest;  
I didn't tell youseeking an answer  
I wanna tell you now  
Tell me why, oh lordbut why, why, why, why?  
You're crossing overwhy? why?  
(I gotta bring you back... to see your face)  
Oh, crossing over  
(I wanna hear you call my name, [to] feel your touch)  
Reaching out, reaching out  
(hear your voice again)  
(to hear your voice again)  
Crossing over  
(to feel your touch)  
Reaching out  
(to feel you)  
Crossing over  
(to feel)  
Crossing over  
(to feel)  
Reaching out, reaching out  
Crossing over
