

Van Halen "The Trouble With Never"

Visit "[The Trouble With Never](#)" on MotoLyrics.com

You often wonder,
You wanna know.
How deep does
The rabbit hole go?

I know you never thought about it
But ask yourself later:
When you turn on your stereo
Does it return the favor?

I gotta know!

That's the trouble with never,
(It) sure seems like a mighty long time.
That's the trouble with never.
When was the last time
You did something for the first time?

Hello!

Every Einstein's assigned
A Tweedle Dumb and Tweedle Dumber.
Any old fool could see,
Never even wonder.

Yeah we could come together.
I will call for you.
Hey, never's good for me.
How's never sound to you?

1-800-Tell-Me-Baby!

That's the trouble with never,
(It) sure may be a mighty long time.
That's the trouble with never.
When was the last time
You did something for the first time?

Yeah!
Level with me baby!
Talk to me!

(Solo)

This could
Damage your reputation:
My wicked wicked ways,

But maybe I just will
Since you put it that way.

Delusions of eloquence?
You never can say.

You wanna play
The game?
You can't quit when you get played.

"Mistakes make people."
Isn't that what people say?

Let's un-plan the moment,
Dance the night away.

Selective amnesia
Is only a heartbeat away.

A simple question
Concerning time:
"Suppose you wait forever
And then you change your mind?"

Oh, No!

That's the trouble with never,
Sure could be a mighty long time.
That's the trouble with never.
When was the last time
You did something for the first time?

When was it?
When was it?
Ah, text me baby!

When baby?
Tell me!
When was the last time baby?
Show me!
