Hey you, wake up, get yourself together
Yeah you, so you think you made it better
'Cause you know it's coming at you

While your back is turned
Look too long and I can't help you
Clear your head, find a way home
Better make up your mind

First you say that you will
Then you say you won't
Well, I'm just trying to figure, yeah
Try and figure you out, yeah yeah

How long can this go on?
Tell me what is wrong
So maybe there's a way
That we can work it out

There must be some kind of way
That we can make it right
But I, I just can't do it all
Without you, not without you

Hey fool, wise up, better late than never
Yeah you, you know that nothing lasts forever
Nobody ever told you that your time is running out
Too bad and I can't help you

How long can this go on?
Tell me what is wrong
And maybe there's a way
That we can work it out

There must be some kind of way
That we can make it right
But I, I just can't do it all
Without you, without you

The point I'm trying to make
You got to give more than you take
You gotta give, give more than you take

Got, yeah, got to, got to, got to work it out

Aa, yeah, yeah, yeah, yeah

Yeah

There must be some kind of way
That we can make it right
But I, I just can't do it all
Without you, not without you

There must be some kind of way
That we can make it right
But I just can't do it all
Without you

We'll find a way
A better way
(You got to give more than you take)
We'll find a way
(Only point I'm trying to make)
A much better way
(You got to give more than you take)

We'll find a way
(Oh, give a little bit more)
A better way
(Yeah, give a little bit more)
We'll find a way
(Give a little, give a little, give a little bit more)
A much better way
(You got to give, give a little bit more)
