Saw you shining in the sun this morning
Saw you shining in the moon at night
Saw you shining in the sun this morning
Saw you shining in the moon at night

Ancient of days, ancient of days
Ancient of day

Saw you standing by the winding river
Saw you standing by the shining stream
Saw you standing by the winding river
Saw you standing by the shining stream

Ancient of days, ancient of days
Ancient of day

Felt you stirring in my heart this morning

Felt you moving in my heart at night
Felt you stirring in my heart this morning
Felt you moving in my heart at night

Ancient of days, ancient of days
Ancient of day

Saw you shining in the sun this morning
Saw you shining in the starry night
Saw you shining in the sun this morning
Saw you shining in the starry night

Ancient of days, ancient of days
Ancient of day
