If I paint the lashes dark
And the eyes more bright
And your lips more scarlet
Ask if itll all be right
And its mirror after mirror
No vanities displayed
Youre just looking for the face you had
Before the world was made
Before the world was made
Before the world was made

And if I look upon you now
As though I have my view
With the earth beneath your feet
And heaven up above
Would you think me cruel
After everythings been said
Youre only looking for the face you had
Before the world was made
Before the world was made
Before the world was made

And if I paint the lashes dark
And your eyes more bright
And your lips more scarlet
Ask if itll all be right
And its mirror after mirror
No vanities displayed
Im just looking for the face you had
Before the world was made
Before the world was made
Before the world was made

Your original face
Before time and space
Your original face
Before time and space
Your original, original face
Before the world was made
Before the world was made
Before the world was made
