

Van Morrison "If You Love Me"

Visit "[If You Love Me](#)" on MotoLyrics.com

If you love me
You will give your heart
Why should we be apart
If you love me

If you love me
Baby you will know the truth
I wasn't born to lose
And I love you

Affinity and communication
That makes reality
Understanding is the first thing
It means so much to me

If I love you
I will find the key
If it's meant to be

Because, 'cause I love you
(Alright)

Affinity and communication
That makes, that makes, that makes reality
Understanding is the first thing
That means so very much to me

If I love you, baby
I will find the key
And, if it's meant to be, yes it is
And I love you, yes I do

And I love you, baby
And I promise I do
