

Van Morrison "Take It Where You Find It"

Visit "[Take It Where You Find It](#)" on MotoLyrics.com

Men saw the stars at the edge of the sea
They thought great thoughts about liberty
Poets wrote down words that did fit
Writers wrote books
Thinkers thought about it

Take it where you find it
Cant leave it alone
You will find a purpose
To carry it on
Mainly when you find it
Your heart will be strong
About it

Manys the road I have walked upon
Manys the hour between dusk and dawn
Manys the time
Manys the mile
I see it all now
Through the eyes of a child

Take it where you find it
Cant leave it alone
You will find a purpose
To carry it on
Mainly when you find it
Your heart will be strong
About it

Chorus:
Lost dreams and found dreams
In america
In america
In america
Lost dreams and found dreams
In america
In america
In america

And close your eyes
Leave it all for a while
Leave the world

And your worries behind
You will build on whatever is real
And wake up each day
To a new waking dream

Take it where you find it
Cant leave it alone
You will find a purpose
To carry it on
Mainly when you find it
Your heart will be strong
About it

Repeat chorus

Change, change come over
Change come over
Talkin about a change
Change, change
Change come over, now
Change, change, change come over

Im gonna walk down the street
Until I see
My shining light
Im gonna walk down the street
Until I see
My shining light
Im gonna walk down the street
Until I see
My shining light
Im gonna walk down the street
Until I see
My shining light
I see my light
See my light
See my shining light
I see my light
See my light
See my shining light

Repeat chorus two times & fade
