Down those old ancient streets  
Down those old ancient roads  
Baby, there together we must go  
Till we get the healing done  
Till we get the healing done

Till you're satisfied with your life  
Till you're satisfied with your life  
Till you're satisfied with your life  
And it's running right  
And it's running right

Till you deal with the poison inside  
Sometime you've got to sit down and cry  
When you deal with the poison inside  
Till we get the healing done  
Till we get the healing done

Till you feel the tingle up your spine  
Till you're satisfied and you're mine  
Till you feel a tingle up your spine  
Get the healing done  
Till we get the healing done

Till you live in the glory of the world  
Till you live in the land of the sun  
Till you feel like your life has just begun  
Till we get the healing done  
Till we get the healing done

Till we dwell in the house of the Lord  
Till you don't have to worry no more  
Till you open a brand new world  
Till we get the healing done  
Till we get the healing done

Till it makes you feel alright  
Till you're satisfied with your life  
Till you know you live in the light  
Till we get the healing done  
Till we get the healing done

Till you look at, well, the mountains every day  
Till you wash all your troubles away  
And you live right here in the day  
Till we get the healing done  
Until we get the healing done

Till it's truth and it's beauty, and it's grace  
Till you've finally found your true place

Till you know your original face  
Till we get the healing done  
Child, till we get the healing done

When everything is going right  
Till you're satisfied with your life  
Till you're living in the light  
Till we get the healing done  
Till we get the healing done

When you feel it, when you feel it in your soul  
Baby, and you really know  
That you reap just what you sow  
When we get the healing done  
Till we get the healing done

Till you know that it's working every time  
Till you work it out in your mind  
And you know it straight down the line  
Till we get the healing done  
Make no worry till we get the healing done

We gonna go back, back to our favorite place  
Look at it again  
See it all through a different eyes  
When we get the healing done  
When we get the healing done

We're living by the grace of the Lord  
Baby, I'm feeling so good about it all  
Give thanks every day  
Till we get the healing done  
Until we get the healing done  
Till we get the healing done

Baby, baby, till we get the healing done  
Till we get the healing done  
Baby, you got to stay  
Till we get the healing done

If it takes 'til the break of day  
Till we get the healing done

Till we get the healing done  
Till we get the healing done  
Till we get the healing done  
You got to stay all night long
