Another day to feel behind
Another competition
Another way to say goodbye
Kill all you need and I'll survive
Another prize for us to lose
We're born to suck up and abuse

And now the wounds are covered up
So there's no need to worry
Feeling better if you shout
Need to throw up but nothing comes out
With to fingers down your throat
Feel the rush den write a note

Forgive me

Cut a gaspipe
Need a light
Flames are beautiful at night
I will cut, that's fore sure
Cause I don't feel it anumore

That's the last time
Promise then
I'll never make you cry again
technology's approved machines
Will erase the memories
Do you love me still my friend
I'll never make you cry again

I promise

Cut a gaspipe
Need a light?
Flames are beautiful at night
Cut me lose, get released
From the burden of your knees

We'll be happy, that's for sure
It must never be like before

I promise
