Put your sneakers on, Put your sneakers on
We're goin' dancin' all night long

I got somewhere to be (where to be, where to be),
I want you to come with me (come with me)
See I've put my sneakers on,
Cause I'm gonna keep dancin'
After they all go home

So are you ready? Did you eat? Do you have the
energy?

Are you reloaded? Are you able to stay on your feet?
Don't want you passing out after a couple hours of
beats
We're keep going, And going, And going, Yeah, Cause

[Chorus:]

Basically what we're gonna do is dance (3x)
It will come easily when you hear the beat (uh)
Basically what we're gonna do is dance (2x)

All you gotta do is take a chance
Yeah that's right, it's sneaker night

So now they're closing,
(Close it up, Shut it down, go home now)
But this far from the end,
(Second round 'Ding' it's about to begin)
Cause I got comfortable footwear
The weather is nice
So let's take it outside
This needs some hand claps
And the beatbox,
And it's all right

[Chorus]

Basically what we're gonna do is dance (3x)
It will come easily, when ya hear the beat (uh)
Basically what we're gonna do is dance (2x)

Don't you even worry about other plans

Yeah, that's right it's sneaker night!

When the sun goes down, we wake up
I got no sleep. Ha! No need
No problem staying away
When the beat is like an earthquake
Oh oh oh ooooh oooh

And we're unstoppable,
We're uncontrollable
Just admit it,
You can't stop it,
It's addictive
Yeah yeah yeah

Basically what we're gonna do is dance(3x)
Yeah that's right it's Sneakernight!

[Chorus]
Basically what we're gonna do is dance(3x)
It will come easily when ya here the beat
Basically what we're gonna do is dance(2x)

Don't you even worry about other plans
Yeah, that's right it's sneaker night!
Hahaha!

Put your sneakers on...
Let's go all night long...
