You found hope
You found faith
Found how fast she could take it away
Found true love
Lost your heart
Now you don't know who you are
She made it easy
Made it free
Made it hurt till you couldn't see
Sometimes it hurts
Sometimes it flows
But baby that's how love goes
Chorus:
You will fly and
You will crawl
God knows even angels fall
No such thing as you
Must stay on
God knows even angels fall
Its a secret no one tells
One day it's heaven
One day it's hell
It's no fairytale
Take it from me
That's the way it's supposed to be
Chorus:
You will fly and
You will crawl
God knows even angels fall
No such thing as you
Must stay on
God knows even angels fall
You laugh
You cry
No one knows why
But all the thrill I layed on
Your on the ride you might as well
Open your eyes
Chorus:
You will fly and
You will crawl
God knows even angels fall

No such thing as you
Must stay on
God knows even angels fall
Even Angels fall
Even angels fall
