I first saw you at the video exchange
I know my heart and it will never change
This temp work would be all right if you'd call me
(You'd call me)
I lie awake at night and for you I pray

We cross the deepest oceans
Cargo across the sea
And if you don't believe me
Just put your hands on me

And all the constellations
Shine down on you and me
And if you don't believe me
Just put your hands on me
(Ah, ah, ah)

The subway radiates with heat
We've barely met and still I cross
The street to your door

We cross the deepest oceans
Cargo across the sea
And if you don't believe me
Just put your hands on me

And all the constellations
Shine down on you and me
And if you don't believe me
Just put your hands on me
(Ah, ah, ah)

Someday when our stories are told
They'll tell of a love like this
When our descendants are all growing old
1000 years we'll be singing

Na, na, na, na, na, na, na, na

We climb Tibetan mountains
Where we can barely breathe
I see the Dalai Lama

I feel him blessing me

And all the constellations
Shine down on you and me
And if you don't believe me
Just put your hands on me

Na, na, na, na, na, na, na
Your hands on me

I first saw you at the video exchange
