I need somebody who can feel me (2x)

I need somebody who can feel me
I wanna dance, move, get into the groove (2x)

I need somebody who can feel me (2x)

Come on now you'll fall in love somehow
Move on girl don't wait anymore
I am here I know what you must feel
Life goes on don't wait anymore

Oh why run and hide
Tonight don't you cry
I can set you free
My baby cant you see

I need somebody who can feel me
I wanna dance, move, get into the groove (2x)
I need somebody who can feel me (2x)

Come on now you'll fall in love somehow
Move on girl don't wait anymore
I am here I know what you must feel
Life goes on don't wait anymore

Oh why run and hide
Tonight don't you cry
I can set you free
My baby can't you see

I need somebody who can feel me
I wanna dance, move, get into the groove (4x)
