I:

Listen, I'd like to tell you everything I feel
Unspoken words till now
Tears will flow, but they won't stop me
Stay just one night & one more day

R:

& I miss, I miss getting lost in her eyes
& it's hard for me, hard, it hurts more today than yesterday
I want to be able, to be able to turn back time
I wanna know, know, that we're still the two of us

II:

It hurts me that so much time has passed, (so much time)
You don't care about the love that I feel
I want you to give me answers that you know, (I want you to know)
I'm waiting one more night & one more day for you

R:

& I miss, I miss getting lost in her eyes
& it's hard for me, hard, it hurts more today than yesterday
I want to be able, to be able to turn back time
I wanna know, know, that we're still the two of us

Mi-e atat de greu, fara tine-n sufletul meu x2
Mi-e atat de greu x4

R:

& I miss, I miss getting lost in her eyes
& it's hard for me, hard, it hurts more today than yesterday
I want to be able, to be able to turn back time
I wanna know, know, that we're still the two of us
