"Alive"

I am the Universe (I'm free as a bird)
A strange machine digging in the dirt (But who does it hurt)
Thunder rolls but no one listens (They don't want to hear)
Dust will blow but red blood glistens
I am alive I am alive I am alive but I'm cold inside

Now they reach beneath my skin (Pleasure and sin)
Still I can't feel a thing (They're drinking me in)
Now they put red lips on mine (They're taking what's mine)
Red like blood red like wine
I am alive I am alive I am alive but I'm cold inside

I'm the air that you breathe I'm the salt of your sea
I'm a crow in the night I'm the daughter of light
