Evening slips into my room
Echoes in the corridor
Street lamps turn a shade of blue
Lovers whisper in the dark

Evening when I miss you most of all
My heaven in this world
A silent raindrop falls
To the earth...

Evening knows my every move
Your finger running through my hair
Crimson lips a crimson kiss
In the strange electric air...

Evening when I miss you most of all
My heaven in this world
A silent raindrop falls
To the earth...

Evening (I miss you most of all)
Evening (A silent raindrop falls)
Evening...evening...

You make me ache
By the way you bow your head
In the neon glow
Flashing open through the window
On the unmade bed
On the unmade bed...

Evening brings the hunter home
And the sailor from the sea
One by one each breath we take
Slips into eternity

Evening when I miss you most of all
My heaven in this world
A silent raindrop falls
To the earth...

Evening when I miss you most of all
My heaven in this world
A silent raindrop falls
To the earth...
