Vanessa Daou
"If I Could"

If I could
I'd climb inside of you
I'd look out from your eyes
To see the world you do

If I could
I'd reach into your mind
I'd die a thousand times
Keep coming back to you

Now it's time for me
To feel your pain
To understand your shame
To know you like I should

If I could
I'd dive into your dreams
And drown beneath your tears
Swim the deepest sea

If I could
I'd wrap my love around
Break your defenses down
To bring you near to me

Now it's time for me
To feel your pain
To understand your shame
To know you like I should

If I could...

If I could
What I would do for you...
What I would do...

If I could
What I would do for you...
What I would do...

Now it's time for me

To feel your pain
To understand your shame
To know you like I should

If I could...

If I could
What I would do for you...

If I could
What I would do for you...
What I would do...

If I could
What I would do for you...
What I would do...

If I could
What I would do for you...
What I would do...

If I could...
