If it is written in the stars, then it can be read  
For this is prophecy  
The future  
A thousand million possibilities

Is it my destiny?

Destiny  
I'll find you  
In my dreams

Destiny  
I'll find you  
In my dreams  
Eternity awaits  
I'll find you  
In my dreams

Destiny  
I'll find you  
In my dreams  
Eternity awaits  
I'll find you  
In my dreams

Destiny  
Eternity awaits  
From the guardians of Egypt  
I'll find you  
In my dreams  
To the furthest star in the furthest galaxy
