Something is reaching me now  
Something that lives in the dark of my mind  
It's like a small thought is gone  
it's like a millstone ground it to sand, and

Hey soothsayer listen up  
You dont know who I am  
Old friend what if you were right?  
Don't wanna be that man

Never known to nap  
Not gonna sleep it out  
I wanna burn you  
Yes, I wanna burn you down

I have a troublesome girl  
She treats me like a parole officer  
And she checks in from time to time  
Always insisting everything is fine  
And hey pitboss listen here  
Don't up and throw me out  
Oh darling back me up  
Markers showing the route

Never known to nap  
Not gonna sleep it out  
I wanna burn you  
Yes I wanna burn you

Japanese cowboys put their snowsuits on  
I'm gonna burn you  
Yes I'm gonna burn you down

Yes I'm gonna burn you down
