I been to Bangkok and I been to Arkansas
I've been to Paris, France and that is ????
Down in the hollow spot where light is never seen
I've drank the coldest Popenheim's gasoline

You should be
You should be doubly doubly
You should be
You should be doubly gratified
You should be
You should be doubly doubly
You should be
You should be doubly gratified

Hmm-Hmm-Hmm

I'm at the table and I'm staring at the plate
I wait for guests and they are 15 hours late
I read my German book and learned a bunch of verbs
I spoke a language only lonely girls have heard

You should be
You should be doubly doubly
You should be
You should be doubly gratified
You should be
You should be doubly doubly
You should be
You should be doubly gratified

Bright lights shimmer
Shimmer shimmer bright lights
Bright lights shimmer

I slip the weight

Slip you the weight
I push the weight
Push you the weight

Bright lights shimmer
Bright lights shimmer

Hmm-Hmm-Hmm

You should be
You should be doubly doubly
You should be
You should be doubly gratified
You should be
You should be doubly doubly
You should be
You should be doubly gratified

You sh-sh-sh-sh-sh-should be doubly
You should be doubly gratified

You should be
You should be doubly doubly
You should be
You should be doubly gratified

(Mix)
You should be
You should be doubly doubly
You should be
You should be doubly gratified

Hmm-Hmm-Hmm

Bright lights shimmer
