You found a pack of matches there in my coat
Neither one of us smokes
Don't be trippin' on me now
Feel my flow and set the overheads low
Make the mood tonight
With candlelight
You made a promise that you'd make me your queen
I made a vow to keep my commitment clean
Never think that I'm gonna go astray

Did you ever consider that I'm truly serious
No matter what goes down can come between the two
of us
Place your faith in me
Not what other people may say (what they say)

Don't believe a solitary word
You know for you I'm coming home
Don't become a pawn in a jealous game
Just because I might be out on my own
Don't cha' worry 'bout what all the haters heard
I'm with you at the dawn of every day
Even if they tell you that our life is a lie
You know my love is bonafide

Mama taught me to look out for my own
And my man in the G H E double T O
We got a bond that is solid as gold
Don't be stressin' out
Ain't messin' about
But ain't it funny people play with our dreams (with our
dreams)
Make a mission to split us at the seams
I'll never leave you looking like a lonely man

Did you ever consider that I'm truly serious (truly
serious)
No matter what goes down can come between the two
of us
Place your faith in me
Not what other people may say (what they say)

Don't believe a solitary word
You know for you I'm coming home
Don't become a pawn in a jealous game
Just because I might be out on my own
Don't cha' worry 'bout what all the haters heard
I'm with you at the dawn of every day
Even if they tell you that our life is a lie
You know my love is bonafide

We've paid our dues
There's nothing we can't do
Got the secrets of the stars in the palm of our hands
All we need
Is trust and honesty
Won't let nobody's bad wishes stand in our way

Don't believe a solitary word
You know for you I'm coming home
Don't become a pawn in a jealous game
Just because I might be out on my own
Don't cha' worry 'bout what all the haters heard
I'm with you at the dawn of every day
Even if they tell you that our life is a lie
You know my love is bonafide

Don't believe a solitary word
You know for you I'm coming home
Don't become a pawn in a jealous game
Just because I might be out on my own
Don't cha' worry 'bout what all the haters heard
I'm with you at the dawn of every day
Even if they tell you that our life is a lie
You know my love is bonafide
