Everytime I close my eyes
Baby I wish you were there
Don't believe in all their lies
Don't you know that they don't care
Think about the love we share
I wanna be with you
I know that you can find the truth
So let me guide you

I send a S.O.S.
To show you how I feel
You should know that my love is for real
I'm not giving up
Cos' baby you're my love
And I'm working on a way were I can get back to you

Do you remember
Baby when we kissed in the night
Do you remember
The feeling that we had was so right (everything we
had was alright)

How can I make you see
Baby you belong to me
It's just a game of jealousy
Only love can set you free
Think about the time we share
Cos' I'm in love with you
I know you feel the same way, too
So let me guide you

I send a S.O.S.
To show you how I feel
You should know that my love is for real
I'm not giving up
Cos' baby you're my love,
And I'm working on a way were I can get back to you

Do you remember
Baby when we kissed in the night
Do you remember

The feeling that we had was so right

Do you remember
Remember when I gave you my heart
Do you remember (do you remember)
When nothing could have torn us apart

Baby I can't give away
All the things I had with you
I know that you want me, too
So baby why don't you open your heart

Do you remember
Baby when we kissed in the night
Do you remember
The feeling that we had was so right

Do you remember
Remember when I gave you my heart
Do you remember
When nothing could have torn us apart
