Could it be that you're living in a bad dream
Everyday pass you by like a thunderstorm
Misfortune are raining down on you
Feels like you never ever gonna pull thru
I know that you've been hurt
too many times
Because of peoples selfishness, greed and love of
money
You've been held in a cage
kept in the dark
Even the strongest would loose that spark

You gotta feed your soul
Surround yourself with love
Never stop believing
Cause you can make it a dream come true
Don't ever loose your faith
You gotta be strong
Try to hold on and on and on

Now why does everything has to be so hard
When all you wanna do is to spread some love
But there's no need to feel down and blue
Cause the love for the music they can never take from
you
Here me when I say you can always count on me
Don't hold back give it all you've got
Lovin', singing, writing and create
Take my hand cause it's never too late

You gotta feed your soul
Surround yourself with love, baby
Never stop believing
Cause you can make it a dream come true
Don't ever loose your faith
You gotta be strong, you gotta gonna be strong
Try to hold on and on and on

yeah yeah yeah yeah yeah
gotta feed your soul

You gotta feed your soul
Surround yourself with love, baby
Never stop believing
Cause you can make it a dream come true
Don't ever loose your faith
You gotta be strong, you gotta gonna be strong
Try to hold on and on and on

Can't give up now, you've come so far
Everyday's a struggle, I know it's hard
Baby please don't cry
Give it just one more try

Can't give up now, you've come so far
Everyday's a struggle, I know it's hard
Baby please don't cry
Give it just one more try

You gotta feed your soul
Everyday's a struggle, I know it's hard
Never stop believing
Give it just one more try
So never loose your thing
Everyday's a struggle, I know it's hard
Try to hold on and on and on (give it just one more try)

You gotta feed your soul
Surround yourself with love
Never stop believing
Cause you can make it a dream come true
Don't don't ever loose your faith
You gotta be strong, gotta be strong
Try to hold on and on and on
