Freak your mind
you just might find
the world gets put on hold
sit right back relax and laugh
all you need to know
rainy days will go away
everything will be ok (freak your mind)
will be ok

loving you is pretty fine
touching you gives me butterflies
hanging out it's me and you
doin' what we wanna do

so bend that smile with me
and we can fly
we're leaving believe me the time is right

Freak your mind
you just might find
the world gets put on hold
sit right back relax and laugh
all you need to know
rainy days will go away
everything will be ok (freak your mind)
will be ok

We look at things it's black and white
we put our trust in the same style
what a friend the very best
hold me close - forever

so bend that smile with me
and lets get high
we're leavin' believe me the time is right

Freak your mind
you just might find
the world gets put on hold
sit right back relax and laugh
all you need to know

rainy days will go away
everything will be ok (freak your mind)
will be ok

Freak your mind
believe me yeah
we're leavin'
we can fly yeah
the time is right (the time is right)
freak your mind (freak your mind)
you just might find yeah (you just might find)
mhmm ohohooo
Freak your mind
you just might find
the world gets put on hold
sit right back relax and laugh
all you need to know
rainy days will go away
everything will be ok (freak your mind)
will be ok
