They say you are independent, but I
I say you are beautiful
I, I in time we will learn how to tango
It's not that difficult
I, I

One single tear is enough to cry
I won't go near, if it hurts your pride
My greatest fear is to please you, not to tell you lies
But you've turned me over, don't ask me why
'cause then it's over

They say we are different from each other
Aren't we supposed to be?
Loud thoughts I can hear them struggle with you
Call you away from me
I, I

One single tear is enough to cry
I won't go near, if it hurts your pride
My greatest fear is to please you, not to tell you lies
But you've turned me over, don't ask me why
'cause then it's over

You've turned me over
You've turned me over
You've turned me over

One single tear is enough to cry
I won't go near, if it hurts your pride
My greatest fear is to please you, not to tell you lies
But you've turned me over
One single tear is enough to cry
I won't go near, if it hurts your pride
My greatest fear is to please you, not to tell you lies
But you've turned me over, don't ask me why
'cause then it's over
