Maybe I've got a crush on you  
But maybe I dream to much  
Sometimes I wanna feel like you  
But sometimes I could die  
You take my breathe and I'm on fire  
Could It be  
My feelings bounce on my own  
But it doesn't looks like guess it seems  
Give me an answer

You don't wanna see me  
But I feel like you  
You don't wanna hear me  
Wanna know what to do  
I should tell you that I love you  
But I'm to shy  
And if you wanna hold me  
We should try

Now I know you see me  
I'm not sure to show you my mind  
I'm so nervous and fall down to your feeds  
Because of that you joking me  
You show me you're not the right guy  
I don't wanna have your tention no more  
Because I see what my love is for

You don't wanna see me  
But I feel like you  
You don't wanna hear me  
Wanna know what to do  
I should tell you that I love you  
But I'm to shy  
And if you wanna hold me  
We should try

Wanna loving you  
You should loving me too  
Wanna holding you  
You should holding me too

You don't wanna see me  
But I feel like you  
You don't wanna hear me  
Wanna know what to do  
I should tell you that I love you  
But I'm to shy  
And if you wanna hold me  
We should try

You don't wanna see me  
But I feel like you  
You don't wanna hear me  
Wanna know what to do  
I should tell you that I love you  
But I'm to shy  
And if you wanna hold me  
We should try
