Let me tell U a story

My favorite band in life is playing town on Wednesday's night

I wish 2 God I had the nerve 2 go

The singer in the band is my type, not 2 big or small

But I hate 2 let my inner feelings show

My made-up name is Vanity cuz a girl's best friend's her pride

And a working girl don't have 2 tolerate the mailman's tricks

Everybody gets 3 years of tribulation unless they lie

But with the female, $3 \times 2 = 6$

When I'm older, I wanna be a movie star just like Greta Garbo

Well, then I could tell everybody what 2 do

Well, she was so cool, it was plain 2 see that she was in control

I bet she never played the part of anyone's fool

So, my made-up name is Vanity cuz a girl's best friend's her pride

And a working girl don't have 2 tolerate the mailman's tricks

(Oh no, oh no)

Everybody gets 3 years of tribulation unless they lie

But with the female, $3 \times 2 = 6$

Play your song one time baby girl

I don't think they heard U now, baby

That's all I need 2 say because I think U understand

Unless, of course, in another life U were a man

Please believe me when I tell U a girl's best friend's her pride

A working girl don't have 2 tolerate the mailman's tricks (No she don't)

Everybody gets 3 years of tribulation unless they lie

But with the female, well, $3 \times 2 = 6$

Won't somebody help me?

Please believe me when I tell U a girl's best friend's her
pride

A working girl don't have 2 tolerate the mailman's
tricks

Sister, can U hear me?

(Everybody gets 3 years of tribulation unless they lie)

But with the female, ($3 \times 2 = 6$) $3 \times 2 = 6$

(Sister, can U hear me talkin' 2 ya?)

(Please believe me when I tell U a girl's best friend's
her pride)

When I tell ya a girl's best friend's her pride

(A working girl don't have 2 tolerate the mailman's
tricks)

(Sister, can U hear me?)

(Everybody gets 3 years of tribulation unless they lie)

But with the female, $3 \times 2 = 6$
