"No Sense"

I've tried so hard to understand
I think I'm going to loose my mind some day
Cause it makes no sense cause it makes no sense

No one knows nobody cares
Everybody is trying to be someone else
Cause it makes no sense

All the things that I believe in
I'm not so sure but I get this feeling
Is this for real or am I only dreaming

Don want to know what's about to happen
Just keep waiting for surprises
Is this for real or am I only dreaming

Cause it makes no sense
