"Space Is A Fake"

Visit "[Space Is A Fake](#)" on MotoLyrics.com

Space is fake, we can travel the endless time
Space is fake, take a good look around

Space is fake, I can see what you're trying to hide
Space is fake, it's turning me up and down

Can you hear me, are you out there
You are the one who makes it happen
There's no need to talk about it
You're the one who makes it happen

I know how it feels you're not the only one

Space is fake, it's a picture inside my mind

Can you hear me, are you out there
You are the one who makes it happen
There's no need to talk about it
You're the one who makes it happen

I know how it feels you're not the only one
(Take a look around)
