Lately something is missing, maybe last time it was too
easy
Every time I try to let it out, just makes it worse
And you still keep waiting for more

Been in too many places maybe I didn't get your
message
Every time I try to bring you down it makes it worse
And you know i'll never give up

Sunshine, what's taking you so long?
Sunshine, I just can't wait no more

Lately something is missing maybe last time it was too
easy
Every time I try to let it out, just makes it worse
And you know ill never give up
