## "Tell Me How You End The Story (No Sé Como Se Llama)"

Visit "[Tell Me How You End The Story \(No Sé Como Se Llama\)](#)" on MotoLyrics.com

tell me how you end the story  
tell me how you throw it all away  
who's the one that you can trust on  
who's the one that you'll never forget  
find a way to talk about it  
find a way to put it out of my head  
i was living life in pictures  
all my memories never seem to change

and she came all the way from nowhere  
and she came all the way from nowhere

you've been trying to make me sorry  
you've been trying to hide your feelings away  
who's the one that you can trust on  
who's the one you'll never forget

and she came all the way from nowhere  
and she came all the way from nowhere

getting tired of all this places  
getting tired of all this...
