Sometimes it seems like you're falling  
Falling out of the sky  
Sometimes it feels like you're slipping  
And running out of time

And that's when you've gotta throw it  
all away  
All of the things that people say  
And all of the doubts that fill your mind  
Don't belong there

Whatever you do, you'll never be wrong  
As long as you reach for it, when you reach for it  
Nothing's too far and it's never too long  
As long as you reach for it, you can dream on it  
Everywhere it's there

Sometimes I can be stupid  
I can get out of line  
But most times you know what I'm doin'  
It's not like some big surprise

Oh, and I, I just want to make you understand  
That failin' on me isn't in my plans  
And all of the doubts that fill my mind  
Don't belong there

Whatever you do, you'll never be wrong  
As long as you reach for it, when you reach for it  
Nothing's too far and it's never too long  
As long as you reach for it, you can dream on it  
Everywhere

There's so much distance  
Between what you want and what you've got  
But if you really want it, it's your life  
So you gotta try, you've gotta fly

Whatever you do, you'll never be wrong  
You can reach for it  
(You can reach for it)  
It's never too far and it's never too long

As long as you reach for it, you can dream on it

Everywhere

(All you gotta do is reach for it)

Everywhere

(All you gotta do is reach for it)

Whatever you do, you'll never be wrong

(All you gotta do is, all you gotta do is)

As long as you reach for it, when you reach for it

(All you gotta do is reach for it)

Nothing's too far and it's never too long

As long as you reach for it, you can dream on it

Everywhere, everywhere, everywhere

Everywhere, everywhere, everywhere

Everywhere, everywhere, everywhere
