You're playing with my eyes
wide shut while i'm racing
waiting until i can see you again
The main ___ close my eyes
no matter how hard i try
it's like i can't fight the feeling you give

Girl you got me fixing for addiction
strong out on your love
and i never felt this way before
Seems like no matter what i do
I can't seem to make it through
and i cant take this situation much more

Cause she got me tossing and turning at night
For her loving
and i can't get enough of this girl [this girl]
and it hits me everytime when i try to close
my eyes i cant get my mind off of her

i'm like an insomniac
like an insomniac
like an insomniac
for you

baby i cant even close my eyes
thinking bout the way she hold me tight
telling me things she know i like
got a man laying wide awake all night
Running out of dreamin and i dont care
if i fall i know shes there
everything that i ever wanted there
mad cause i know she got a man

i lied awake because i don't wanna miss a moment with
you
tell me what i should do
cause everytime i close my eyes i try to make it through
baby thats when i see you again

Cause she got me tossing and turning at night

For her loving
and i can't get enough of this girl [this girl]
and it hits me everytime when i try to close
my eyes i cant get my mind off of her

i'm like an insomniac
like an insomniac
like an insomniac
for you

Like an insomniac x3
for you

girl thats what you do to me
i dont understand it
i jus cant get to sleep
no matter what i do

she got me tossing and turning at night
for her love
and i cant get enough of thi girl
and it hits me everytime when i try to close
my eyes i cant get my mind off of her

i'm like an insomniac
like an insomniac
like an insomniac
for you
