[Verse 1:]

I thought I busied the past last night
Got out some photos and went back in time
If I knew what I'd do now
I wouldn't have let you go
But I didn't know you was right
I tried to tell you it's over
It's probably not
You got a hook let it sing, girl
Double tie the knot
So if you still care for me
Then tell me
(Then tell me, then tell me)

[Chorus:]

Why'd I have to go away, run away
I was stupid and scared
To afraid to show that I cared
Now there's no way to say
The feelings are coming back
Got me right back where I started
Got me right back where I started

[Verse 2:]

It's been a year since left me here
I tried to act like I didn't care when you left
I played it off like it's nothing
But baby, I was so wrong
I keep holding on to the past
I know I told you it's over
But we know it's not
You got a hook let it sing, girl
Double tie the knot
So if you still feel for me
Then tell me
(Tell me)
Tell me

[Chorus:]

Why'd I have to go away, run away
I was stupid and scared

To afraid to show that I cared
Now there's no way to say
The feelings are coming back
Got me right back where I started
You got me right back where I started

[Bridge:]

So if you wanna give trust a try
(Trust a try)
You can trust me baby look in my eyes
(Look in my eyes)
If we try, we won't fail
Cause this road is our destiny
I think you were made just for me

[Chorus: x2]

Why'd I have to go away, run away
I was stupid and scared
To afraid to show that I cared
Now there's no way to say
The feelings are coming back

Why'd I have to go away, run away
I was stupid and scared
To afraid to show that I cared
Now there's no way to say
The feelings are coming back
Got me right back where I started, oh oh
Got me right back where I started
Now it's okay to say the feelings are coming back
Got me right back where I started
