[Vast Aire]

One three five

I'm screaming in your face but you don't hear me tho

Gun shed, Rainbow, Harlem Nights

Where's my niggas at?

Smack you in your face, you crazy?

Y'all need to leave that crack alone

Leave that crack alone

Leave that crack alone

Leave that crack alone

I can't hear you

[Verse 1]

Y'all niggas is bitch like

Can't talk your way out can't even fist fight

I think you pressed your luck

You better watch yourself the lottery's up

Two more cheers then we tip the cup

We ending carrers tonight, that's what's up

What's up Eso, yea I called you out

It's only matters of time before the bitch use out

And it's only matters of time till your teeth fall out

When you ran back home you lost your clout, Gimme
that

You shoulda never started shit

Now your in the corner with a bandage kit

Plus I know your jelouse of Lif

That's why he bounced on y'all, y'all 'aint doing it

He got with some real cats, that's true to this

Now your all black-listed, your ruined it

[Chorus x2]

I'm a knock y'all down a level

Sort of like when Micheal cast down the devil

Sort of like when the earth gets reduced to a peble

Sort of like when the goverment defeats the rebel

[Verse 2]

I was there when you begged El to sign you

He knew Ox was gonna blow so he didn't sign you
Wooo, I guess the secrets out
Mommy they won't play with us, then go in the house
Play time's over, close your mouth
Do all your chores and then you go out
The closet, and I think it's a walk-in
With 7L behind you and he 'aint even talking
I heard your beats on ten, they 'aint even thumping
Cry now cuase your castles crumbling
And if you heard Dirty Mag, you know they fronting
You think we care what you did eight years ago
Oh you were on tour with them and so and so
Weathermen, we running this shit
Likliest one in the chamber and you running your shit
What the fuck

[Chorus x3]

[RJD2 scratches to finish the track]
