That's When I'll Be Gone

Ohhhhh hey yaaaa  
mamma oh ohohoh

Girl you don't think really know me  
But you're afraid to trust me  
Stop doubting my intentions  
Why? Why don't you believe me  
There must be something, that you don't wanna mention

I said I shouted from the mountain top  
My never ending love that's what you've got

When the sun don't shine  
And the moon won't glow  
When the rain don't fall  
When the wind don't blow  
When the earth won't spin  
And you're standing still  
That's when I'll be gone  
I ain't going nowhere  
Not if you won't be there  
I ain't going nowhere without you

You, you're my inspiration  
My only motivation  
I have I never needed  
Dreams, you know I doubt I'll be there  
you and me forever  
let me just repeat it  
I told you , you can always count on me  
What can I do to get your mind at me

When the sun don't shine  
And the moon won't glow  
When the rain don't fall  
When the wind don't blow  
When the earth won't spin  
And you're standing still  
That's when I'll be gone

When the rivers dry  
And the oceans part or pond (oceans part or pond)  
When there's not one fear  
In a single heart (single heart)  
And that's when I'll stop  
Stop loving you  
That's when I'll be gone

I ain't going nowhere  
not if you won't be there  
I ain't going nowhere without you

When the stars disappear  
That's when I won't be near or there  
I knew the day I saw you  
I'll always be there for you  
make no mistake and or baby that's when love is here

Ohh Ohh wooo yea yea yeaaaa

When the sun don't shine  
And the moon won't glow  
WHen the rain don't fall  
When the wind don't blow  
When the earth won't spin  
And you're standing still  
That's when I'll be gone (that's when I'll be gone)

I ain't going nowhere  
Not if you won't be there  
I ain't going nowhere without you  
When the rivers dry  
And the oceans part (oceans part)

When there's not one fear  
In a single heart (single heart) And that's when I'll stop  
Stop loving you That's when I'll be gone
