Don't You Know
By: Mike Francis

don't you know I can be calm for hours and hours when
I am lying in your arms.
as I begin to feel the motion synchronizing can u tell..
for every single beat your heart makes I took a breath
in time with you..
though you keep talking more and more I'm always
listening to..
close my eyes and then..

it only takes for a minute until I find my thoughts are
filled with you..
and I never understood how I made you feel the same
and true..
I hear your voice inside me as I lay across your body..
and the noises all around me fade into the sound of
you..

I drift away
when I'm with you
so far away
away with you

don't you know can't you see that I go silent every time
you touch me..
all of my fears and troubles live with every word I had
for you..
I start to dream and you were with me giving me
warmth and safety.
I couldn't tell you how I feeling when I feel this way
babe.
close my eyes and then..

it only takes for a minute until I find my thoughts are
filled with you..
and I never understood how I made you feel the same
and true..
I hear your voice inside me as I lay across your body..
and the noises all around me fade into the sound of

you..

I drift away
when I'm with you
so far away
away with you

if only I could do for you all the things you've done for
me..
if only I could give you everything you gave to me..
baby I'd lay my head down next to yours knowing you
could finally see..
that all that I ever wanted is there to be only.. only you
and me.....

don't you know.. don't you know..
lalalalalala.... lalalalalala.....

don't you know I can be calm for hours and hours when
I am lying in your arms..
can u tell..
for every single beat your heart makes I took a breath
in time with you..
