Whoa-oh-oh

Passed out in the front yard
Do you remember the night before?
(Night before)

It's coming close
But still too far
(Still too far)
These fragile lines
Are what we are

Move slow
As her words fall from my lips
Move slow
And the rest begin to

Read my lips
We're over and done
And best regards
To everyone

Read my lips
We're over and done
And best regards
To everyone

Side by side
You're my partner in crime
You stole my heart
And I'm serving the time

Relax, relax
And just move slow
And just move slow
And just move slow

With a kiss of my cheek
And the sway of her hair
She surely knew
She surely knew

Read my lips
We're over and done
And best regards
To everyone

Read my lips
We're over and done
And best regards
To everyone

She said she'd never forget me
Forgive me
She said she'd never forget me
Forgive me

She said she'd never forget me
Forgive me
She said she'd never forget me
Forgive me

She said she'd never forget me (To everyone)
Forgive me (To everyone)
She said she'd never forget me (To everyone)
Forgive me (To everyone)

She said she'd never forget me (To everyone)
Forgive me
