CHORUS:

Can we start again
To when we first met?
When our eyes set at each others gaze
And our hearts went ablaze

CHORUS

Wasn't it painful?
Painfully beautiful
Now, there's no beauty
No you, there's just me
Now it's just painful... painful
Now it's just painful... painful

CHORUS

Wasn't it painful?
Painfully beautiful
Now, there's no beauty
No you, just me
Now it's just painful... painful
Now it's just painful... painful

Can we start again?
Can we start again?
