

Vegetable G "The Cox Man"

Visit "[The Cox Man](#)" on MotoLyrics.com

We choose the sun
we choose the sun

we keep in touch
with the stars

we come and go
to get the highway

we choose the ground
we choose the ground

we have to choose
to cross the sky

we'll never stop
to need the cox man

let's go and build the ship
to get a long way
here we go...we go to start the trip now
with the cox man...

We come and go
to get the highway

we'll never stop
to need the cox man
