Veil Of Maya
"Punisher"

Do you remember
When your heart had that drive
Thrived to seek more
While it was there
The last care
We won't sleep for a day

If we survive
Survive just one more day
I'll forge a moment
A Marvel for all of time
If life was simple
Mended by the mask
Perfection glistens
It glows glamorous

Faces drawing near
Purged away by the flame
Seeking out crystals

Do you remember
When your heart had that drive
Thrived to seek more
While it was there
The last care
We won't sleep for a day

If we survive
Survive just one more day
I'll forge a moment
A Marvel for all of time

Under this weight
We will crawl

Last shot trigger stall
Hold your ground

Freeze all of your love

Ignite all the lust

Freeze all of your love

Ignite all the lust

(All they have is just: *voice imitated guitar*)

As we try to get back
It drifts away
As we try to get back
It drifts away.
