

Veil Of Maya

"Test Animals"

Visit "[Test Animals](#)" on MotoLyrics.com

1- Listen

2- Remember

3- Repeat

4- Till the day you die

You've got to know all the ways of the world

How to eat, where to sleep, complete your education

Respect the ones demanding your attention

Arrive on time, walk in line, shut your mouth

Mystify inspiration and learn to know what's a stupid question

Remember to listen to what you've been told

Now difficult decisions you're beginning to avoid

Release your nature

This is what it feels like

This is what it feels like when you just let go

What does it mean to survive?

Test animals just try to find their way out

Don't act like you were born

To make a living

1- Listen

2- Remember

3- Repeat

Repeat

So you're spending all this time in order to find

All the important things that now are shaping your life

So you can sit back, spending your days

Gaining weight, staying awake watching the prime time premiere

One by one you forget what you've done

But some mother there's a won't allow you to die

Your mind says goodbye, you're body's still alive so tell me why

Was it all worth the fight?

Release your nature

This is what it feels like

This is what it feels like when you just let go

What does it mean to survive?

Test animals just try to find their way out

Don't act like you were born

To make a living

What does it take to survive?

Test animals will never find their way out
Some things can't be taught
